

EDUCATION

- **HSE University** Moscow, Russia
B.Sc. in Applied Mathematics and Informatics | GPA: 9.41 *July 2023 – Expected May 2027*
- **Relevant Coursework:** Algorithms, Data Structures, Machine Learning, Linear Algebra, Probability, Discrete Mathematics, Optimizations in Matrixes computation, Graph Theory.
- **Additional Education:** Summer Computer School (tracks B', 7, 9); Tinkoff Education (tracks B, A', A);

RESEARCH EXPERIENCE

- **T Bank** Moscow, Russia
Research Intern — Artificial Intelligence Technology Center *Sept 2025 – Present*
 - **Research:** Designed and conducted experiments comparing reinforcement learning (RLOO) and supervised fine-tuning for improving mathematical reasoning in LLMs
 - **Implementation:** Built training and evaluation pipelines for Qwen2.5-Math and LLaMA3.1 models using PyTorch; worked with existing distributed training setup (Ray-based)
 - **Findings:** Observed that steering vectors underperform full-model fine-tuning under SFT. This gap can be reduced by increasing adaptation capacity or improving training data quality
 - **Publication:** First author of a paper under submission to ARR (ACL 2026 cycle)

PUBLICATIONS

- **On the Effectiveness of Trainable Steering Vectors in Supervised Fine-Tuning:** Under submission to ARR (ACL 2026 cycle). First author. Contribution: experimental design, implementation, and analysis of SFT vs RL behavior

PROJECTS

- **UMAP vs. t-SNE: Topological Perspective:** Analyzed structural and topological differences between dimensionality reduction methods; presented at the 12th KSASF conference
- **Task Solver (Rust):** Asynchronous Python/Bash execution service; demonstrates multithreading, async programming, and systems-level implementation.

TEACHING EXPERIENCE

- **Algorithms and Programming Teaching** Russia
Teacher, Instructor, and Coach *2021 – Present*
 - **Summer Computer School:** Instructed highly motivated high-school students in informatics; delivered lectures on advanced data structures (link-cut trees, heavy-light decomposition, Minkowski sums).
 - **Moscow Region Informatics Team:** Coached students for regional and national olympiads.

ACHIEVEMENTS

- **Prize Winner - All-Russian Olympiad in Mathematics:** Special Jury Prize for innovative application of combinatorial group theory (2022).
- **Prize Winner - All-Russian Olympiad in Informatics:** 2023
- **Gold Medal & 2nd Place Overall - International Mathematical Olympiad (OMOUS):** Gold medal and 2nd absolute place in both individual and team standings.
- **HSE FCS Scholarship:** For excellent academic performance.
- **Yandex Scholarship:** For active research contributions in computer science.

INTERESTS

- **Track and Field:** Moscow U20 Indoors Champion (800m), Candidate for Master of Sports
- **Accordion:** Graduated music school with honors
- **Chess:** 2300 Lichess, 2000 Chess.com
